

## FCO-TM (quenching tank)

Quenching tank on wheels with liquid stirring by impeller (VS-A) or pump (VS-P)

| TECHNICAL FEATURES             |        | U.M.            | VS-A<br>130  | VS-P<br>250  |
|--------------------------------|--------|-----------------|--------------|--------------|
| Total power                    |        | kW              | 5            | 10           |
| Power supply                   |        | V               | 400<br>3F+PE | 400<br>3F+PE |
| Heating and regulation zones   |        | No.             | 1            | 1            |
| Maximum temperature            |        | °C              | 300          | 300          |
| Dimensions of immersion basket | Width  | mm              | 450          | 650          |
|                                | Height | mm              | 550          | 680          |
|                                | Depth  | mm              | 300          | 370          |
| Oil volume in the tank         |        | dm <sup>3</sup> | 130          | 250          |
| Maximum extinguishing capacity |        | kg              | 15           | 25           |
| Overall dimensions             | Width  | mm              | 800          | 1.100        |
|                                | Height | mm              | 820          | 1.000        |
|                                | Depth  | mm              | 720          | 800          |
